The person selling you or advising you about the product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

### THE CUMULATIVE EFFECT OF COSTS ON RETURN

The growth rate provided on the document is an indication, is not guaranteed and actual costs and charges may depend on the performance of the fund. The total charges deducted for the fund will have an impact on the investment return you might get. Whilst performance can't be guaranteed, we can give you examples of how the charges will affect what you might get back.

£1,000 lump sum invested in this fund for 1 year with a net growth rate of 3%	
What you might get back if there were no charges at all	£1,089.39
What you might get back after charges	£1,030.00

Without fees the performance you could have achieved would be 8.94% after fees the performance achieved is 3%. This equates to a reduction in profit of £59.39
